**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 4, line 1, "5" has been changed to -- 3 --.

In claim 11, line 1, "7" has been changed to -- 8 --.

2. The above changes have been made in order to correct clear typographical errors in the claims.
3. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art for the reasons set forth in the arguments filed 3/10/06. These arguments are persuasive and the 103 rejections set forth in the prior office action are withdrawn in view of these arguments. Claim 1 and the claims dependent thereon are allowable since the prior art does not disclose or suggest a method for making an absorbent composite from a continuous tow including the steps of spreading a crimped tow, deregistering the crimped tow, shielding the tow from contaminants during deregistration, shaping the deregistered tow, and distributing a particulate onto the shaped tow. The prior art fails to suggest shielding the tow during a step of deregistering. Claim 6 and the claims dependent thereon are allowable since the prior art does not disclose or suggest an apparatus for making an absorbent composite from a continuous tow including means for spreading a crimped tow, means for deregistering the crimped tow, means for shielding the tow from contaminants while deregistering, means for shaping the deregistered tow, and means for distributing a particulate onto the shaped tow, within the meaning of applicant's 112,

sixth paragraph "means plus function" limitations. Specifically, the prior art fails to suggest a means for shielding the tow while deregistering, as claimed in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
